"Caring For Your Loved One As If They Were Our Own"

Motivated By Love. Our name says it all ~ A Legacy of Love Homecare, LLC. Though, we were recently established, our foundation began to be formed many, many years ago during the childhood of our founder & agency administrator, Kimyatta! Coming from a single-parent family dynamic where she was the oldest, Kimyatta was thrust into the role of "pseudo parenting". She was responsible for looking after (or caring) for her younger siblings. She also grew up with very close-ties with extended family members that included her great-grandmother, grandparents, aunts & uncles, who were all very caring, full of knowledge & wisdom that they so graciously passed down! Learning from this "old-school" yet priceless way of interacting and thinking, a knowledgeable, strong yet caring and compassionate leader was born! One who at her very core embodies the values and exudes the character of times past!

Backed By Experience. Our founder & agency administrator comes from a family with strong moral character as well as a strong sense of "family"! A family that is very caring & loving.....yes, one that is family-centered, family-focused and family-oriented! Kimyatta had what she calls the wonderful privilege of taking her dear Mom into her home and caring for her until her passing. This she viewed as an opportunity to "return the love"! These experiences are what inspired her to dedicate her life to helping others in similar situations, ultimately leading her to establish an agency focused on providing compassionate and comprehensive care for aging individuals and their families. Kimyatta's personal journey of caregiving gives her unique insights and a deep understanding of the challenges and the emotional toll involved, fueling her passion to make a meaningful difference in the lives of others. You'll be pleased to hear that this agency was established with the same spirit of LOVE & family at its core! In addition to all of this, Kimyatta spent several years working for a company that provided group home & supported living services to individuals with developmental disabilities. All that being said, her knowledge and experience truly runs deep! One notable fact we would like for you to keep in mind, is that our core care team are all actually family! Thus, you can rest-assure that our family-owned agency is always working hard to ensure our "extended" family ~ that will include YOU and YOURS are well-cared for!
